Tech Skills

Main Programming Skills

- Python (DataScience) 
- Vue.JS (Front) 
- Node.JS (Back) 

Other Technologies, Languages:

- Java (Spring); PHP (Laravel);
- Python (Django/Flask);
- React.js; SQL; Git; Excel;

Data Science

- Data analysis
- Data visualization;
- Statistic; Machine Learning;
- Build Dashboard;
- Spark; Airflow; PowerBI; dbt;

Rafael Morais de Assis

About Me

Graduated in Computer Science at UFU, I worked for 2 years as an internship as a software developer. Currently, I seek to migrate to the area of data science or data analysis, which I am very interested in and have dedicated myself to studies.

Academic Education

Bacharel em Ciência da Computação

UFU – Universidade Federal de Uberlândia (2015–2022)

Principal Experiência: Scientific Initiation in a research project in the area of data that resulted in a scientific article and my TCC. An ML model was developed to predict when a customer is more likely to make broadband complaints based on their internet signals using data provided by Algar Telecom.

Professional Experience

Estágio como Desenvolvedor Full Stack

Neppo, Uberlândia | 2017 – 2019

- Full-Stack Developer: I worked developing web pages using Vue.js and building APIs using PHP and Java (Spring).
- Construction of Data Pipelines with Pentaho and development of SQL queries to the MySQL database.

Experience in personal projects

- Project development using Vue.js on the FrontEnd and Node.JS on the BackEnd.
- Data analysis and development of Machine Learning models using Python.
- To see the reviews, visit my kaggle profile:
 - [kaggle.com/rafanthx13](https://www.kaggle.com/rafanthx13)
- MySQL and PostgreSQL Database Management
- Build of Dashboards using python (Plotly) and Power BI.
- Development of web pages using HTML, CSS and JS.
